

# 2007 Campout Lottery Process

Lottery Co-chairs: Nick Graf and Eric Vance  
email: [campout.ltry.2007@gmail.com](mailto:campout.ltry.2007@gmail.com)

## **Before Campout:**

1. The number of *lottery chances* entered by each camper is verified for all eligible, registered campers by cross-referencing results from previous Campout lotteries.
2. Exemption status is entered for all campers granted exemptions.

## **After the last random check:**

1. Campers failing to complete Campout (either by missing the first check or missing more than one check) are recorded in the database and will not be awarded the opportunity to buy season ticket cards.
2. Random numbers are generated for each chance in the lottery as determined before Campout. For example, a camper with 3 *lottery chances* is assigned 3 random numbers.
3. Each camper successfully completing Campout is assigned a lottery number which is that camper's lowest random number.
4. Members of the Basketball Committee are selected by the Committee Co-Chairs to receive tickets as a reward for service to the Committee. No more than 21 discretionary tickets will be allocated to Committee members.
5. Tickets are assigned to the campers with the lowest lottery numbers, and then to the Committee members selected by the co-chairs so that the total number of tickets awarded equals the number of tickets available for sale at the completion of Campout. Campers with the next lowest lottery numbers are selected as alternates.

## **After the Campout area is clean:**

1. All campers will be informed of their success in the lottery and those winning the opportunity to purchase tickets must do so at the completion of Campout.
2. Alternates will be notified the following week by e-mail if they will have the opportunity to purchase tickets, and arrangements for sale of these tickets will be made at that time.
